

Καλώς ήρθατε στο σχολείο μας! Καλώς ήρθατε στον Βόλο!

Welcome to our school! Welcome to Volos!

Benvenuto nella nostra scuola! Benvenuto in Volos!

Bienvenido a nuestra escuela! Bienvenido a Volos!

Bem vindo a nossa escola! Bem vindo ao Volos!

Okulumuza hoşgeldiniz! Volos'a hoş geldiniz!

Velkommen til vores skole! Velkommen til Volos!

Our journey is beginning!

A magical journey that will unite six European countries and will bring them very close even though they are so far away on the map.

Through this journey we will share experiences, we will teach each other, learn from each other and we will become a group with the help of the magic of myths and history of each nation.

Our issue is Immigration. Always in the news but as old as human history.

Yes, indeed! “Our people would be poorer without immigrants”, as the Secretary-General of the United Nations has said.

The first Gymnasium of Volos is the most historic school in our city. As a humanistic institution, it transmits the principles of democracy, solidarity, tolerance, and acceptance and supports all those who abandoned their place of birth either by choice or due to violence.

So let's become a family and let us deal with what the whole humanity expects from us.

My friends ... It is a great honour for all of us that you have visited our school.

A great welcome from all the staff and the students of this school.
