## A. Read the text and answer the questions. (10 points)

Dear Jane,

Well, first you should start by smiling. It makes you look friendly and people want to be around you. A very good idea is to do something you enjoy. What about a sports activity? Or you could join an after-school club. This way, you can meet people who have similar interests to you and have something to chat about right away. Why don't you talk to your mum about your problem? She might come up with some wonderful ideas. You shouldn't feel nervous about making new mates. Just relax, be yourself and you'll be fine.

All the best,

Agony Aunt
